

Greta Thunberg

QUESTION	ANSWER
1. What is a revolution?	A sharp and often violent change in who has power in a country or a system.
2. What does “spark a revolution mean?”	It means something she did or said caused a revolution to suddenly happen
3. Why did she leave the climate action group?	Because Greta wanted to start strikes to protest about climate change but the others in the group weren't interested in that
4. What is climate change?	Climate change (or global warming), is the process of our planet heating up.
5. How did she protest against climate change?	She did all of those things
6. What did she think was causing climate change?	Greenhouse gas emissions
7.What did she want people to do?	Wake up, change how they lived in order to reduce greenhouse gas emissions
8.Which details in this paragraph tell you that Greta is super dedicated to her climate change mission?	At first, she skipped school every day then every Friday. She protested through freezing weather and even when people ignored her or told her she was wasting her time.
9. How do we know that her message was spreading and people were becoming more aware of the climate change crisis?	Many people joined her in her protest in Sweden and started their own climate change protests around the world
10. Why was the protest called "Fridays for the Future"?	Because the day of protest was every Friday and it was being done to save the future of our planet
What does her “second language” mean?	She usually speaks another language, (Swedish) but she can also speak English as well.
Why, if she was so shy, did Greta give a speech to thousands of people?	Because her passion for saving the planet is greater than her shyness and she knew that she had to speak to get more people to hear her message and spread the word!
