

Geography: Russia

In this topic we will: raise awareness of the four major Russian biomes to help protect them for future generations. Can you become a Biome Co-ordinator and put on your own creative biome exhibition that will include food chain mobiles, adaptation fold-ups, an online classification key and a large scale model of your chosen biome? If so, then welcome to Russia!

What I already Know about Russian geography	What I would like to find out about Russian geography
